Victory Omojo Imadi

Cybersecurity Intern.

omojoimadii@gmail.com | +91 8699586063 | omojoimadi.com | github.com/omojoimadi | linkedin.com/omojoimadi

Profile Summary

Computer Science student specializing in Information Security with a strong foundation in networking, Linux systems, and cybersecurity fundamentals. Experience with vulnerability scanning, traffic analysis, and Python-based security tools. Actively building practical skills through projects, labs, and industry-recognized certifications.

Technical Skills

- Networking: TCP/IP, DNS, DHCP, LAN/WAN
- Cybersecurity: Basic vulnerability scanning, information security principles
- Tools: Wireshark, Nmap, Linux command line, VirtualBox
- Programming: Python, Bash scripting, HTML, CSS, Basic SQL
- Other: Troubleshooting, system maintenance, technical documentation

Projects & Experience

1. **Password Generator (Python)**
    - Developed a Python script that generates secure, random passwords using letters, numbers, and symbols with the ***Python random library.***
    - Implemented input validation and customizable password length to improve usability and security.
    - Applied Python loops and string manipulation to reliable password generation.
2. **File Encryption and Decryption Tool (Python)**
    - Built a desktop application that encrypts and decrypts user files using symmetric key encryption ***(Fernet AES algorithm).***
    - Implemented file protection features with Python's ***cryptography*** module to ensure data confidentiality.
    - Designed a simple graphical user interface (GUI) for user interaction and demo presentation.
3. ***Academic Cybersecurity Lab Work – Chandigarh University (September 2024)***
    - Conducted vulnerability scanning and basic network defense exercises.
    - Configured and secured Linux-based systems for security practice.
    - Analyzed network traffic using **Wireshark** to understand protocols and detect anomalies.

Education

B.Eng. in Computer Science and Engineering (Specializing in Information Security) Chandigarh University, India / June 2023 – July 2027

Certifications

- Microsoft certified: Security, Compliance and Identity Fundamentals (SC-900) — *Microsoft, 2025*
- IBM DevOps, Cloud and Agile Foundations Specialization —*IBM Skills Network, 2025*
- Python For Everybody Specialization —*University of Michigan, 2026*
- CompTIA Security+ (in progress) *CompTIA, Expected 2026*

Language

English (Native), German (Elementary Proficiency)
